PARK REVIEW

The lone skatepark is yet another great park in the middle of nowhere. This place is definitely all about the bowl. Get your backyard shred on this perfect pool coping. The bowl goes from around 4 feet in the shallow to about 8.5 feet in the deep end. You got a ton of options for lines so carve your little heart out. The rest of the skatepark has some good speed lines but just nowhere to take it. For the most part the lone Skatepark is worth a drive, make sure to bring your pads as the rumor is tickets are being handed out occasionally.
